- a) Robo
- b) MRI machine
- c) OCR
- d) ATM machine

10. which of the following is a device that provides data to a computer system.

- a) input device
- b) output device
- c) storage device
- d) communication device

(10 x 2 = 20 marks)

(02) Complete the blank using given words.

01. The hard disk is a
02. is a input device.
03. A computer screen is a
04. The basic components of computer include
05. is a embedded device.

(smart television, output, scanner, storage, device, process)

(5 x 2 = 10 marks)

(03) Match A with B

Part A

Part B

01. process

a) Typing

02. Printer

b) processor

03. Computer scanner

c) output device

04. Key board

d) MP4

05. DVD

e) software

(5 x 2 = 10 marks)

(04) Differentiate the following devices into input devices, output devices and storage devices?

Keyboard, printer, computer monitor, CD, microphone, DVD, scanner, pen drive, blue – ray, mouse.

No.	Input Devices	Output Devices	Storage Devices
1			
2			
3			
4			

(2 x 5 = 10 marks)

(05) Write the name of the following device.

a)

.....

b)

.....

c)

.....

d)

.....

e)

.....

f)

.....

g)

.....

h)

.....

i)

.....

j)

.....

(10 x 2 = 20 marks)

(06) Answer the following Question.

01. what is a computer?

.....
.....

02. write three feature of computer.

.....
.....

03. Give three example for storage device.

.....
.....

04. write three sector that computer used in?

.....
.....

05. what are the basic function of a computer?

.....
.....

06. write three examples for communication device.

.....
.....

07. write three devices include in embedded computer.

.....
.....

08. Give three example for External storage?

.....
.....

09. Give three example for input device.

.....
.....

10. what do you mean by software.

.....
.....

(10 x 3 = 30 marks)
